

Course:

## Book Study, Overcoming Dyslexia

This Second Edition of Overcoming Dyslexia is even better than the first! It is the go-to book for the most recent evidence-based information on the why, what and how of dyslexia. The authors do an amazing job making the information user-friendly so that educators as well as parents learn to recognize the characteristics of dyslexia and come up with a plan to effectively deal with it in a positive way. The preservation of self-esteem is at the core of all of the strategies discussed and while the problems associated with dyslexia are shared in a straight-forward and scientific way, common strengths of dyslexics are also considered so that they learn to progress through life in a meaningful way. All age-groups are considered, from birth to beyond college. I highly recommend this book to any educator looking to understand and address this reading disorder which affects approximately one in five children.

## BOOK:

Overcoming Dyslexia-Second Edition

By Sally Shaywitz, M.D. and Jonathan Shaywitz, M.D.

## COST:

\$175 Course Fee

## OPTIONAL GRADUATE CREDITS/ WA STATE CLOCK HOURS:

Graduate Credits offered
