

Course:

Culturally Responsive Teaching and The Brain

Do you struggle to meet the academic and social needs of all students in your classroom? Would you like to increase engagement and rigor with culturally and linguistically diverse students? Research shows that we are all wired for expansive learning, high intellectual performances and self-determination. If this is true, then what is needed to activate that wiring for optimal connectivity for students of color? In short, culturally responsive teaching! Educators who understand culturally responsive teaching have more success with culturally and linguistically diverse students in their classrooms.

BOOK:

Culturally Responsive Teaching and The Brain

Written by *Zaretta Hammond*

COST:

\$175 Course Registration Fee

GRADUATE CREDITS/ CLOCK HOURS:

3 Quarter Graduate Credits offered through Seattle Pacific University (additional \$180)

or

30 WA State Clock Hours offered through ESD 112 - \$3 per clock hour.
